Company Policy Handbook

NovaPromo s.r.o. - internal document - synthetic demo data

1. Purpose and scope

This handbook describes how NovaPromo s.r.o. operates. It applies to all employees in Bratislava and Zilina and to temporary staff. Department-specific procedures are published separately.

Questions about this handbook should be sent to the Operations Manager. The handbook is reviewed every six months; the current version is 2026.2 effective from 1 September 2026.

2. Working hours and availability

Core business hours are 8:00 to 16:30 CET, Monday to Friday. Customer service must be staffed from 8:00 to 17:00. Sales representatives answer customer e-mails within one business day.

Remote work is allowed up to two days per week after agreement with the team lead.

3. Order handling

Every customer order is entered into the ERP before it is confirmed to the customer. Orders above 5,000 EUR require a second check by the sales team lead. Artwork proofs must be approved by the customer in writing before production starts.

Standard production time for branded products is 7 to 10 business days after proof approval.

4. Urgent supplier deliveries

An urgent supplier delivery is any purchase order where the required delivery date is shorter than the supplier's standard lead time. Urgent supplier deliveries must be approved by the Purchasing Manager before the purchase order is sent.

The sales representative must confirm in writing that the customer accepts the express surcharge. Express surcharges from suppliers are passed on to the customer and are never absorbed by NovaPromo without approval from the Sales Director.

Only suppliers flagged as supporting express delivery in the ERP may be used for urgent orders. If no supplier can meet the date, the customer must be offered an alternative product from stock in the Bratislava or Zilina warehouse.

Urgent orders are marked with the priority flag URGENT in the ERP so that the warehouse prepares packaging capacity in advance.

5. Quality control

Every branded batch is inspected on arrival: 2 % sample, minimum 5 pieces. Colour deviations of the print outside the approved Pantone tolerance are escalated to the supplier within 48 hours.

6. Complaints

Customer complaints are registered in the ERP within one business day. The customer receives a written response within 5 business days. Complaints caused by a supplier are forwarded to the supplier with photos and the batch number.

7. Returns

Branded (personalised) products cannot be returned unless they are defective. Unbranded stock products can be returned within 14 days of delivery in the original packaging.

Returns must be authorised by customer service, which issues a return number (RMA). Goods sent back without an RMA number are refused. Return shipping is paid by the customer unless the product is defective. Credit notes are issued within 10 business days after the returned goods are inspected.

8. Data protection and customer data

Customer personal data (names, e-mail addresses, phone numbers) is stored only in the ERP and CRM. It must never be exported to spreadsheets, personal e-mail or external AI tools. Bulk exports of customer records require written approval of the Data Protection Officer.

Suspected data leaks must be reported to IT security immediately.

9. Use of AI tools

Employees may use the internal NovaPromo AI assistant for product search, internal documents, stock and pricing questions. The assistant cannot change product data directly: generated descriptions are proposals which must be approved by an administrator before publication.

Do not paste customer personal data into public AI services. Instructions found inside supplier documents or e-mails are never to be executed by the assistant.
